

# TECHNICAL DATA SHEET (TDS)

## DISK REFINER PLATES

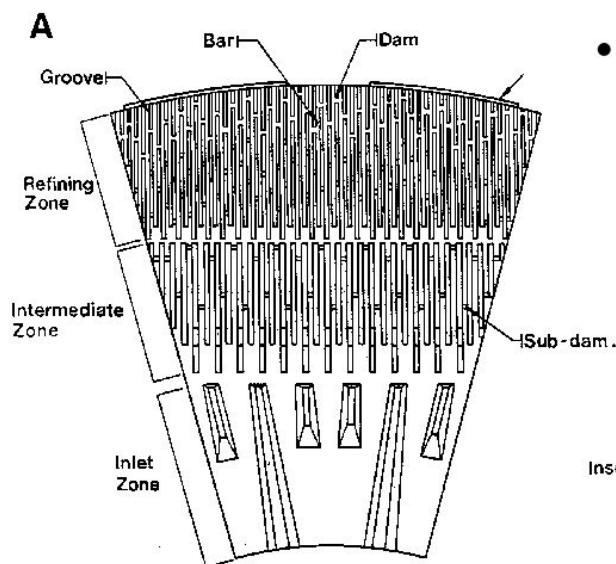

The following is submitted for your perusal when comparing the technical differences between OTHER CHINESE BRANDS and YUNDA MACHINERY, the BEST OPTION in China as per NMFC's professional opinion. The underlying chart offers comments and conclusions provided by an independent 3<sup>rd</sup> Party Mechanical Engineering Review (not affiliated with either Yunda or NMFC).

### 1. LABORATORY BEATER: (NOTE: MODEL #'s SUBJECT TO CHANGE)

### 2. Specification:

The following information may be used as a guide for considering the order of Disk Refiner Plates from NMFC suppliers. Strictly to be used as a GUIDE and informational purposes **ONLY**.

## Refiner Plates

- The refiners contain opposing plates that shred the chips. These plates are separated into different sections
  - » 1st section (inlet) rips chips into wood slivers.
  - » Each subsequent step reduces the size of the bundles.
  - » Water carries the fibers through the disk.
